

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example bias in the media unless they air an eqally biased film about g.w.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. But when large companies control the airwaves, we get more of what's good for the bottom line and less of what we need for our republic.

Sinclair's actions show why i'd rather this country became socialist like europe than be run exclusively by fat cats who think that they can hijack our republic to express their private opinions.

thank you
